

# NEW FORM TECHNOLOGY

*Invites you to attend the  
official opening of its new initiative:*

## THE NEW FORM TECHNOLOGY RESEARCH CENTER

MARCH 30, 2013, 1:00 – 4:00 PM  
971 TERMINAL WAY, SAN CARLOS, CALIFORNIA 94070

# NEW FORM TECHNOLOGY

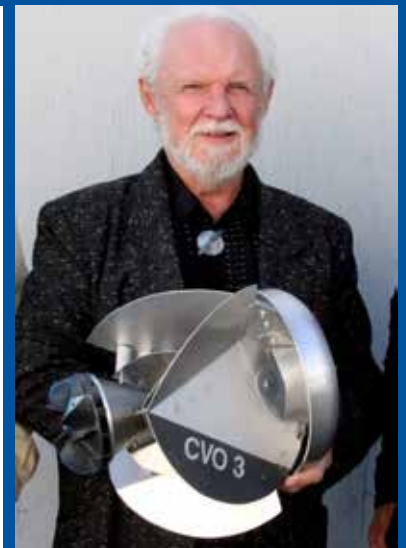

**WHO:** Frank Chester, Fellow Researchers, Friends, Volunteers and Students.  
Any questions please call Frank: (415) 221-5883.

**WHEN:** **March 30, 2013, 1:00 - 4:00 PM**

**WHERE:** **971 Terminal Way, San Carlos, California 94070**

**HOW:** Potluck lunch, conversation, shared research visioning. Exactly 88 years ago on March 30, Rudolf Steiner crossed the threshold. We will honor this date with the opening of the new research center. Please feel free to contribute in any way you wish.

**WHY:** To celebrate the beginning of the New Form Technology Research Center, made possible by a generous gift of space and facilities from ATCO Advertising owners and a seed grant donated by the Raphael Medical Foundation.

The research center is devoted to the task of discovering and developing applications of new geometric research of the kind that Frank Chester has been working with for over a decade.

Initial research will concentrate on the CVO (Chesta Vortex Organizer, pictured above), a mixing device geared towards water enhancement for agricultural, biodynamic, household, and medical use.
